**ATCC’s Molecular Biology Collection**

- Collection includes over 7,500 items
- Includes hosts, vectors, genomic & cDNA libraries, probes, cloned genes, oncogenes, & oligonucleotides.
- Free catalogues available upon request.
  * postage fee to foreign destinations

**NEW FROM ASM PRESS**

**Molecular Biology of Bacteriophage T4**

Editor-in-Chief: Jim D. Karam

Molecular Biology of Bacteriophage T4 highlights the value of this biological system as a research and teaching tool. A comprehensive bibliography (over 3400 entries) provides the most thorough and up-to-date compilation of T4 literature available in print.

June 1994. Hardcover (ISBN 1-55581-064-0), ca. 600 pages, index. List price, $109.00; ASM Member, $89.00. Shipping charges: 5% of the price.

ASM accepts VISA, MasterCard, American Express, EuroCard, purchase orders, and checks drawn on U.S. banks in U.S. dollars. Canadian orders must include 7% G.S.T. ASM Press, P.O. Box 605, Herndon, VA 22070 USA. Fax: (703) 883-0660.

**Bacterial Pathogenesis: A Molecular Approach**

Abigail A. Sayers, Ph.D., and Dixie Whitt, Ph.D.

“This wonderful book by Abigail Sayers and Dixie Whitt fills the need for a textbook designed to introduce students at all levels into the field of bacterial pathogenesis. The authors have done a splendid job of capturing the rich excitement that pervades the field, they have portrayed the interdisciplinary nature of the field, and they have weave enough cell biology and cellular immunology into their text to do justice to the breadth of this experimental specialty.”

— Stanley Falkow, Stanford University

(from the Foreword)

ASM accepts VISA, American Express, MasterCard, EuroCard, purchase orders, and checks drawn on U.S. banks in U.S. dollars. Canadian orders must include 7% G.S.T. ASM Press, P.O.Box 605, Herndon, VA 22070 USA. Fax (703) 883-0660.

**CD-ROM Demonstration Disks for Both Mac and DOS Are Now Available!**

The most exciting features of our newest product, ASM Journals on CD-ROM, are demonstrated in an updated floppy disk that is FREE for the asking!

The only requirements are that you have a Macintosh or a PC/DOS-compatible computer plus a VGA color monitor and that you fax (202 942-9355) or mail a request for the floppy to: L. M. Illig, Journals Division, American Society for Microbiology, 1325 Massachusetts Ave., N.W., Washington, DC 20005-4171. For appropriate pricing information and accompanying literature, indicate “ASM member” or “nonmember” on your request. Also, specify “Mac” or “DOS.”
NEW FROM ASM PRESS

A comprehensive, engaging, full-color textbook on biotechnology

MOLECULAR BIOTECHNOLOGY
PRINCIPLES AND APPLICATIONS OF RECOMBINANT DNA
Bernard R. Glick and Jack J. Pasternak

Molecular Biotechnology: Principles and Applications is the first text to cover both the underlying scientific principles and the wide-ranging industrial, agricultural, pharmaceutical, and biomedical applications of recombinant DNA technology. It is lucidly written in jargon-free language and contains nearly 200 color illustrations.

CONTENTS

I. Fundamentals of Molecular Biotechnology
1. The Molecular Biotechnology Revolution
2. Recombinant DNA Technology
3. Molecular Research Procedures
4. Manipulation of Gene Expression in Prokaryotes
5. Heterologous Protein Production in Eukaryotic Cells
6. Directed Mutagenesis and Protein Engineering

II. Microbial Systems
7. Microbial Synthesis of Commercial Products
8. Molecular Diagnostics
9. Vaccines and Therapeutic Agents
10. Bioremediation and Biomass Utilization
11. Plant Growth-Promoting Bacteria
12. Microbial Insecticides
13. Large-Scale Production of Proteins from Recombinant Microorganisms

III. Eukaryotic Systems
14. Genetic Engineering of Plants
15. Development and Use of Transgenic Animals
16. Isolation of Human Genes
17. Human Somatic Cell Gene Therapy

IV. Economic, Political, and Social Implications
18. Regulating the Use of Biotechnology
19. Patenting Biotechnology Inventions

Examination copies are available to professors teaching appropriate courses. Please request a copy on your university stationery and indicate course title, semester, and enrollment. Mail it to: ASM Press, 1325 Massachusetts Ave., N.W., Washington, DC 20005.

ASM Member and List price: $39.95. Shipping charges: $2.00.

ASM accepts VISA, American Express, MasterCard, EuroCard, purchase orders, and checks drawn on U.S. banks in U.S. dollars. Canadian orders must include 7% G.S.T.
ASM Press, P.O. Box 605, Herndon, VA 22070 USA. Fax: (703) 689-0660.

AMERICAN SOCIETY FOR MICROBIOLOGY
ASM/CD-ROM:
THE ARCHIVAL DISCS

Years’ Worth of Information Rolled
into a Compact Disc!

A 1992 Archival Disc will contain for a journal:
- article page images and full ASCII text for 1992.
- abstract-level ASCII text (abstract, title, authors, affiliation, receipt/accept dates) for 1989-1991.

A 1993 Archival Disc will contain for a journal:
- article page images and full ASCII text for 1993.

Available for either a Macintosh or MS-DOS personal computer.

Sent via UPS in the U.S., first-class mail to Canada, and airmail to other countries. Prices include shipping, user’s manual, software, and binder for storage.
