**BACULOVIRUSES FOR INSECT PEST CONTROL:**
Safety Considerations

Editors:
Max D. Summers, Reto Engler,
Louis A. Falcon, Patrick Vail

This important new book comprises the proceedings of a symposium sponsored by the Environmental Protection Agency and the United States Department of Agriculture.

The discussions centered on the prospect of registering pest management techniques and compounds that are more selective, less persistent, and more environmentally acceptable than broad-spectrum toxicants.

December 1975, 186 pages, $9.00
(Available to members of ASM at $5.00. Please enclose remittance with order.)
