COVER IMAGE

Cover photograph: Skeletal preparations of embryonic day 18.5 mouse heads stained with alizarin red and alcian blue show the distal truncation of the lower jaw in *Islet1^{flox/flox}; Shh-Cre* mice (bottom) compared to that of the wild type (top). (See related article at e00590-16.) (Copyright © 2017 American Society for Microbiology. All Rights Reserved.)

SPOTLIGHT

Articles of Significant Interest Selected from This Issue by the Editors e00074-17

RESEARCH ARTICLES

NDR1-Dependent Regulation of Kindlin-3 Controls High-Affinity LFA-1 Binding and Immune Synapse Organization e00424-16

Naoyuki Kondo, Yoshihiro Ueda, Toshiyuki Kita, Madoka Ozawa, Takashi Tomiyama, Kaneki Yasuda, Dae-Sik Lim, Tatsuo Kinashi

Osteogenesis Is Improved by Low Tumor Necrosis Factor Alpha Concentration through the Modulation of Gs-Coupled Receptor Signals e00442-16

Simona Daniele, Letizia Natali, Chiara Giacomelli, Pietro Campiglia, Ettore Novellino, Claudia Martini, Maria Letizia Trincavelli

FBXL5 Inactivation in Mouse Brain Induces Aberrant Proliferation of Neural Stem Progenitor Cells e00470-16

Takayoshi Yamauchi, Masaaki Nishiyama, Toshiro Moroishi, Atsuki Kawamura, Keiichi I. Nakayama

L2hgdh Deficiency Accumulates L-2-Hydroxyglutarate with Progressive Leukoencephalopathy and Neurodegeneration e00492-16

Shenghong Ma, Renqiang Sun, Bowen Jiang, Jun Gao, Wanglong Deng, Peng Liu, Ruoyu He, Jing Cui, Minbiao Ji, Wei Yi, Pengyuan Yang, Xiaohui Wu, Yue Xiong, Zilong Qiu, Dan Ye, Kun-Liang Guan

ISLET1-Dependent β -Catenin/Hedgehog Signaling Is Required for Outgrowth of the Lower Jaw e00590-16

Feixue Li, Guoquan Fu, Ying Liu, Xiaoping Miao, Yan Li, Xueqin Yang, Xiaoyun Zhang, Dongliang Yu, Lin Gan, Mengsheng Qiu, Yiping Chen, Ze Zhang, Zunyi Zhang

Derepression of the DNA Methylation Machinery of the *Gata1* Gene Triggers the Differentiation Cue for Erythropoiesis e00592-16

Lei Yu, Jun Takai, Akihito Otsuki, Fumiki Katsuoka, Mikiko Suzuki, Saori Katayama, Masahiro Nezu, James Douglas Engel, Takashi Moriguchi, Masayuki Yamamoto

Effects of Mutations on the Aggregation Propensity of the Human Prion-Like Protein hnRNPA2B1 e00652-16

Kacy R. Paul, Amandine Molliex, Sean Cascarina, Amy E. Boncella, J. Paul Taylor, Eric D. Ross

- The PP2A-B56 Phosphatase Opposes Cyclin E Autocatalytic Degradation via Site-Specific Dephosphorylation** e00657-16
Ryan J. Davis, Jherek Swanger, Bridget T. Hughes, Bruce E. Clurman
- p97 Negatively Regulates NRF2 by Extracting Ubiquitylated NRF2 from the KEAP1-CUL3 E3 Complex** e00660-16
Shasha Tao, Pengfei Liu, Gang Luo, Montserrat Rojo de la Vega, Heping Chen, Tongde Wu, Joseph Tillotson, Eli Chapman, Donna D. Zhang
