

CONTENTS • MARCH 2019 • VOLUME 39, NO. 6

COVER IMAGE

*Cover photograph:* Immunofluorescence image from wild-type (top half) and endocrine cell-specific *Mafb* knockout (bottom half) mouse pancreases. The large images show insulin (green) and glucagon (red) staining. The small images show either *Mafb* (magenta) and glucagon (cyan) or  $\alpha$ -cell fate marker (yellow) and glucagon (magenta) staining. (See related article in April 2018, vol. 38, no. 8, e00504-17.) (Copyright © 2019 American Society for Microbiology. All Rights Reserved.)

SPOTLIGHT

Articles of Significant Interest in This Issue

e00051-19

RESEARCH ARTICLES

CSB-Dependent Cyclin-Dependent Kinase 9 Degradation and RNA Polymerase II Phosphorylation during Transcription-Coupled Repair

e00225-18

*Lise-Marie Donnio, Anna Lagarou, Gabrielle Sueur, Pierre-Olivier Mari, Giuseppina Giglia-Mari*

A Feedback Loop between MicroRNA 155 (miR-155), Programmed Cell Death 4, and Activation Protein 1 Modulates the Expression of miR-155 and Tumorigenesis in Tongue Cancer

e00410-18

*Shabir Zargar, Vivek Tomar, Vidyarani Shyamsundar, Ramshankar Vijayalakshmi, Kumaravel Somasundaram, Devarajan Karunakaran*

RNA Binding Protein HuR Promotes Autophagosome Formation by Regulating Expression of Autophagy-Related Proteins 5, 12, and 16 in Human Hepatocellular Carcinoma Cells

e00508-18

*Eunbyul Ji, Chongtae Kim, Hoin Kang, Sojin Ahn, Myeongwoo Jung, Youlim Hong, Hyosun Tak, Sukchan Lee, Wook Kim, Eun Kyung Lee*

Germ Line Deletion Reveals a Nonessential Role of Atypical Mitogen-Activated Protein Kinase 6/Extracellular Signal-Regulated Kinase 3

e00516-18

*N. Ronkina, K. Schuster-Gossler, F. Hansmann, H. Kunze-Schumacher, I. Sandrock, T. Yakovleva, J. Lafera, W. Baumgärtner, A. Krueger, I. Prinz, A. Gossler, A. Kotlyarov, M. Gaestel*

Reevaluation of the Role of Extracellular Signal-Regulated Kinase 3 in Perinatal Survival and Postnatal Growth Using New Genetically Engineered Mouse Models

e00527-18

*Mathilde Soulez, Marc K. Saba-El-Leil, Benjamin Turgeon, Simon Mathien, Philippe Coulombe, Sonia Klingler, Justine Rousseau, Kim Lévesque, Sylvain Meloche*

ERRATUM

Erratum for Sehrawat et al., "Cancer-Associated Eukaryotic Translation Initiation Factor 1A Mutants Impair Rps3 and Rps10 Binding and Enhance Scanning of Cell Cycle Genes"

e00049-19

*Urmila Sehrawat, Femke Koning, Shaked Ashkenazi, Gil Stelzer, Dena Leshkowitz, Rivka Dikstein*

**AUTHOR CORRECTION**

**Correction for A.P. and Laishram, "Nuclear Phosphatidylinositol-Phosphate Type I Kinase  $\alpha$ -Coupled Star-PAP Polyadenylation Regulates Cell Invasion" e00025-19**

*Sudheesh A.P., Rakesh S. Laishram*
